Environmental Policy

RJT Excavations Ltd is aware that care for the environment is a primary corporate responsibility.

Objectives

To identify and minimise our impact on the environment from our work activities.

Minimise the environmental impact by controlling waste, preventing pollution, using energy efficiently and acting as good neighbours.

Policy

In order to achieve these objectives the Company will:-

- Seek to comply with current and future environmental legislation as a minimum standard.
- Establish objectives and targets for the Company's environmental impacts and regularly review them and the effectiveness of the Environmental Management System in the annual Management System Review.
- Implement procedures that prevent pollution of the air, land or water resources.
- Promote the use of reused and recycled products wherever practical and commercially viable to both our customers and suppliers.
- Reduce waste and consumption of natural resources wherever possible and recycle materials when possible.
- Consider the environment in any new developments.
- Provide appropriate training to all staff to enable them to implement this policy.

All employees have responsibilities for implementation of the system and can all contribute to its success through their suggestions and actions.

Garry Young
Managing Director
